PROFESSIONAL SUMMARY

Passionate UI/UX Designer and BCA graduate with expertise in creating user-centric interfaces, interactive prototypes, and responsive digital products. Proficient in Figma, wireframing, and frontend web technologies including HTML5 and CSS3. Entry-level design professional targeting a UI/UX Designer position to solve real-world problems through functional, accessible, and high-impact design solutions.

TECHNICAL SKILLS

- **Design Tools:** Figma, Adobe XD, Photoshop, Illustrator
- **UI/UX Design:** Wireframing, Prototyping, User Research, User Flows, Responsive Design, Design Systems, Information Architecture
- **Frontend Basics:** HTML5, CSS3, JavaScript
- **Tools & Workflow:** GitHub, VS Code

PROJECTS

Petcare Mobile App UI | *Figma*

- Designed a complete mobile app UI concept for end-to-end pet care services across Android and iOS platforms.
- Designed wireframes, high-fidelity prototypes, user flows, and information architecture to streamline service booking and navigation.
- Ensured high accessibility and responsive design principles to optimize the overall user experience for pet owners.

Mother Bird's Pickle Website | *Figma*

- Designed an interactive website UI for Mother Bird's food product line, featuring pickles, jams, sauces, and crushes.
- Created responsive web layouts, component design systems, product gallery pages, and customer engagement flows.
- Built high-fidelity UI screens and scalable reusable components to maintain visual consistency across all pages.

Mother Bird's Pickle Website | *HTML, CSS*

- Developed a responsive, pixel-perfect website for Mother Bird's food product line, showcasing pickles, jams, sauces, and crushes.
- Engineered clean, modular HTML5 structural layouts and custom CSS3 stylesheets, incorporating fluid grids and media queries for cross-device responsiveness.
- Built interactive UI components, product gallery pages, and customer engagement flows using reusable CSS classes to ensure high visual consistency across all pages.

Personal Portfolio Website | *HTML, CSS*

- Built a responsive personal portfolio website to showcase interactive UI/UX design projects and case studies.
- Designed a modern, glassmorphism-inspired user interface demonstrating practical frontend and aesthetic sensibilities.
- Structured a single-page responsive navigation flow for seamless web browsing and improved usability.

EDUCATION

Bachelor of Computer Applications (BCA) 2021 – 2024
Mar Elias College, Kottappady, Kerala, India – CGPA-6.0

Data Analytics Course 2024 – 2025
G-TECH Kothamangalam, Kerala, India

UI/UX Designing Course 2026
User Experience & Interface Design Training – SMEC LABS, Kaloor, Kerala, India

CERTIFICATIONS

- Figma UI/UX Design Course Certificate –SMEC LABS

ACHIEVEMENTS

- Participated in UI/UX workshops and design challenges
- Built multiple responsive web and mobile UI concepts
- Built responsive frontend projects using HTML and CSS.
