- **UI/UX Skills:** Wireframing, Prototyping, User Research, User Flow, Responsive Design, Design Systems
- **Frontend Basics:** HTML5, CSS3
- **Tools:** GitHub, Notion, VS Code

Projects

Petcare Mobile App UI

Figma

- Designed a modern and user-friendly mobile app UI for complete pet care services on Android and iOS.
- Created wireframes, prototypes, information architecture, and user flows for smooth navigation and booking experiences.
- Focused on accessibility, responsive mobile design, and an easy-to-use interface for pet owners.

Mother Bird's Pickle Website

Figma

- Designed a modern and user-friendly website UI for Mother Bird's food products including pickles, jams, sauces, and crushes.
- Created responsive layouts, product sections, gallery pages, and interactive user flows for better customer engagement.
- Created high-fidelity UI screens, reusable components, and interactive design elements for consistency across the website.

Portfolio Website

HTML, CSS, JavaScript

- Built a responsive personal portfolio website to showcase UI/UX projects.
- Designed a modern, glassmorphism-inspired UI to showcase design aesthetics and sensibilities.
- Structured an intuitive single-page layout for seamless navigation and improved user experience.
